
Bone Health SIG: Secretary

Andrew Bartlett, PT, PhD, MPA

If elected to serve within APTA Geriatrics, I will uphold its values of being person-centered, striving for results, driving for positive change, and working collaboratively with numerous partners.

Specifically, I will consistently strive, not only to advocate for the best quality of care for older adults, but for physical therapists, physical therapist assistants and other health care providers servicing older adults. My service to the Academy will center around the APTA Geriatric Framework of being a trusted resource, lifelong learner, and an advocate to the Academy. Thank you for your consideration.
